MIRROR AT HEAD OF THE LEAGUE

If there was any doubt in the minds of the Mirror fans as to the calibre of baseball that the Canadian Nationals were capable of dishing up, it was dispelled on Saturday evening, the 24th, when Mirror applied the kalsomine brush to the Lacombeites on their own sand.

It was the opening game in the Central Albertaleague, and a loyal band of Mirrorfans and gamblers from the railway town were there in force.

Mirror played snappy ball from the start, and good support was given Walker and Turner from a to z, and both pitched the kind of game the fans like to watch. Mirror also connected for ten hits and besides scoring the three runs had ten men stranded on the bases. Joe Hunsman picked off two flies in left field, and Pete Ryan speared a high and wide one at first that pleased the gang.

Woodward twirled a nice game for Lacombe, being credited with nine strikeouts, but the support accorded him was far from good, the infield having six errors charged against them. Three Lacombe players reached first and only one managed to get as far as the second sack.

Messrs. Purcell, of Mirror, and Ansell, of Lacombe, umpired the game satisfactorily. The game was called at the end of the eighth on account of nature closing down the power plant. Mirror—3 Lacombe—0

The Mirror Canadian Nationals took the lead in the Central Albertaleague on Tuesday evening when they shut out the Red Deer team in a five innings game by a score of 1 to 0. The game was late in starting, although billed for six, it was nearly seven-thirty before the teams squared away for action. Owing to the rain during the afternoon the visitors were late in reaching Mirror, and as a cool wind was blowing from the northwest, it was chilly—real chilly.

Manager Croxton presented the same lineup that trimmed Lacombe on Saturday, and they repeated the performance, although Osterland managed to reach third by fast base running, but that was as far as he got. It was the only play in the game that Red Deer threatened.

Turner, pitched a great game for the C.'s and struck out nine men. Osterland had one strike out, and Smith, who twirled the last innings had none. In the second innings Walker banged out a two-base hit and stretched it to a three on a weak return. Turner hit to centre field and Walker scored on the throw-in.

Red Deer players: Malcolm 2b; George 1b; Smith 3b; Osterland p and 3b; Townsend cf; Day ss; Hoffer rf; Reid lf; Nelson c.

Umpires—Purcell, of Mirror; Brown, of Red Deer.

MONSTER CROWD AT I.O.O.F. DANCE

The eighth annual ball of the Mirror Oddfellows' Lodge, No. 531, held in the Grand theatre last Friday evening, was attended by one of the largest crowds ever gathered together between the four walls of the theatre for an affair of this nature. There were easily over 250 persons there and the floor was not large enough to accommodate the dancers, which is an unusual occurrence.

Faces were in attendance from Lacombe, Stettler, Clive, Delburne, Erskine, Tees, Alexis, Bashaw, Big Valley, and the Mirror crowd was also out in full force. There have been dances without number held in Mirror, over since the hall was erected, but there has never been a dance that was so well attended, and at which the crowd appeared to have such a good time.

The Red Deer orchestra gave the best of scientific music, and their music, and the Mirror Ladies' Aid served an excellent lunch in the town hall during the evening.

The advance announcement of the dance being bigger and better every year and to every way, was fully borne out.

Mishaps Galore

Last Saturday was a Jonah day so far as Mirror motorists were concerned, and the road between this place and Lacombe was a scene of troubles of one kind or another.
E. K. Estell broke a rear axle, this Maxwell while hauling J. Purcell's McLaughlin up the Church hill. F. E. Murray ran a broom across the road, west of Clive. The transmission in Ralph Lakay's Chevrolet became locked just west of Lacombe. J. P. Watters and Mike Kuryluk were trying out the capabilities of their respective Chevrolets and divided a culvert between them, the occupants of both cars ascending to the top and then descending with minor bumps and bruises. J. McClelland's Ford shed both its front and left axles when turning the corner south of the Imperial hotel at Mirror. And finally, The Journal Ford had to be towed into Tees for a little lubrication and a piece of wire.

—But Mirror won the game.

Mr. and Mrs. Andrew Common, Mary and Ernie, motored to Calgary last Friday. On the return trip on Sunday, near Olds, and during a heavy wind and rain storm, a rear spring of the Overland broke and the spokes in the rear wheel broken, at the same time the top was wrenched away and the occupants of the car were placed in a very unpleasant position. Mr. Common phoned in to Calgary for repairs, but instead, a trade was made, and the party returned to Mirror in a new Overland Ford, "Red Bird," sport model. Jimmie Common accompanied the family home.

Important Meeting

President Flewelling, of the Mirror Board of Trade, is desirous of having a full meeting of the board on Thursday evening, June 5th, in the town hall. Any person interested in opening up the road from Mirror to Buffalo lake is asked to attend. The proposed road is an important one, and sufficient money has been subscribed by residents to go ahead with the proposition as submitted by Reeve Jewell, of Lamerton M. D. No. 208.

No Mercy for Bootlegger
The first offender under the new liquor law in effect, arrested in the city of Calgary for bootlegging, was sentenced to a term of six months imprisonment by the magistrate there.

We Want You To Visit Our Ice Cream Parlor

It will always be a cool spot and you are welcome to spend your spare time here. We have special tables and chairs for the children. All our dishes are the sanitary kind. Our Cones are dispensed from a Glass Dust Proof Container. We have all the latest Records for your amusement. Give us a trial.

25c Please!

The Canadian National baseball team delivered the goods in the initial games, and if they continue to display the form shown on Saturday and Tuesday, they should be accorded the unstinted support of every person in Mirror and the district. We leave the team—albeit that is wanted is the financial future of the community.

In future, every person attending a game, except children, will have to pay 25c.

Masonic Service

Ancient Landmark Lodge, No. 109, A.F. & A.M., will hold divine service in the lodge room on Sunday afternoon, June 8th, at three o'clock. Arch Deacon Hayes, of Calgary, will conduct the service, and an invitation is extended to everyone to attend.

Council meeting next Monday evening, also court of revision.

Camrose plays at Mirror on Monday evening, June 2nd, at six o'clock. They have an extra strong line-up this year.

Another league game at Mirror on Thursday, June 5th, at 6 p.m., Ponoka vs. Canadian Nationals.

Canadian National Railways Time Inspector

TRAINING SCHOOL IN BRITAIN TO AID EMIGRANTS

London.—The colonization department of the Canadian National Railway has been formulating a new training school for incoming trainees in Canada, including preliminary instruction in England, to be followed in the Dominion by practical contact with farming conditions.

It is hoped that the scheme will enable likely settlers who, however, possess no agricultural experience, to get acquainted with Canadian agricultural conditions before emigrating. It will also enable the Canadian National Railway colonization department to make a more careful selection of those who profess themselves already experienced in farm work.

About two months ago the Canadian National Railway, through Dr. W. J. Black, European manager of the Canadian National Railway, entered into an agreement with the Overseas Settlement Committee with a view to encouraging the settlement in Canada of groups of families on specially selected lands adjacent to the railway. This scheme included provision of expert advice and also financial assistance for settlers.

Should Improve

Dairy Products

Canadian Dairy Commissioner David Have Quality Brought to Highest Point

Ottawa.—"The solution is to bring the quality of Canadian cheese up to the highest point," said Dr. R. B. Riddick, Canadian Dairy Commissioner, addressing the House Committee on Agriculture and Colonization at Ottawa. New Zealand was now exporting more cheese than Canada, and if her export of butter continued at the present rate, she would soon be exporting more butter and cheese than any country in the world.

Mr. Riddick had, however, never seen a New Zealand cheese with the fine flavor of the finest Canadian.

Yukon Dredge Sinks

Cause of Accident in Klondike River Is Unknown

Dawson.—Dredge number four, operated by British and American, sank in 25 feet of water. The accident occurred in the Klondike River between Bear and Harker creeks. The cause of the sinking is so far unknown. The dredge was in winter quarters and the crew were working it for the summer work. The dredge was built in 1917 at a cost of \$100,000. It had a capacity of 10,000 yards a day and at the time built was the largest in the world.

Will Discuss Bar Route

Moose Jaw.—The executive of the Associated Board of Trade of Saskatchewan will meet in Moose Jaw in July. The agenda to be discussed includes discussion of the Hudson Bay Railway, and a buffalo reserve for Saskatchewan.

New Vancouver Daily Star

Vancouver.—Announcement is made that the Vancouver Daily Star, an independent evening newspaper, will make its appearance in a first edition on June 2. The publisher is Charles E. Campbell.

SAYS CRITICISM OF SENATE BASED ON IGNORANCE

Ottawa.—"Senate reformers," said Hon. M. Dandurand, Governor in Council, to the Senate, "had better avoid some concrete proposal from the Government." The Senate had under discussion at the time the tariff reduction calling for reform of the Upper House by reduction in numbers.

Senator Dandurand said there were few criticisms of the Senate—the mode of appointment and the term of office. Sir John Macdonald had urged that the Senate should be made palatable with the Government, but he believed that it would be better to have a critical second chamber, as the former would be too easily swayed by the Government legislation. He had found that criticism of the Senate was based generally on ignorance of the work of that body. "The Senate," he said, "is not a body that is to be improved by legislation, and its suggestions were generally accepted by the House of Commons. If economy was sought, a reduction in the Senate should be concurrent with a reduction in the Commons."

W. N. A. 1626

American Capital Interested In Alaskan Sodium Deposits

New York.—A syndicate of American capitalists has taken an option on the sodium sulphate deposit at Alaska, Salt, and has sent an expert to report upon the deposit. If the sodium sulphate is as pure as Canadian reports indicate it is, development work will be started early in 1925. Some 200,000 tons of sodium sulphate or Glauber's Salts are used annually in the United States and Canada. If the Alaska salts meet the specifications called for by the market, the present option holders anticipate no difficulty in selling their output. Most of the Glauber's Salts now used in industry is a synthetic product, a by-product of the manufacture of muriatic acid.

Aliens Smuggled Into States

Alleged Traffic Across River Between Canada and Detroit

Detroit.—Hundreds of aliens, denied admission to the United States through legal channels, are "bootlegged" across the Detroit and St. Clair Rivers from Canada every night, declares P. P. Prentiss, in charge of the 11th immigration district. He does not attempt to estimate the number of aliens across the line, but during Detroit, which is believed to be one of the principal centers for such activities. Several methods are used to "bootleg" aliens into the United States.

A known ringer on the Canadian side transports aliens at from \$10 to \$25 a head across the river in small boats. These smugglers have recently become so bold that they carry on their operations in broad daylight. Other aliens effect an entrance by posing as American citizens when they arrive on the numerous ferry boats plying between Detroit and Canada. These ferries carry monthly 500,000 passengers.

British Diplomat Dead

Sir Edward Gooschen Was Ambassador at Berlin When War Started

Sir Edward was a veteran of the British diplomatic service, who died in 1924. He was born in 1862, and at the outbreak of the war was British ambassador to Berlin, taking a prominent part in the negotiations there in which the German chancellor valiantly tried to ensure Britain's neutrality in the impending conflict. It was at his first interview with Sir Edward that the chancellor's famous remark went into the annals of British diplomatic records.

In 1923 Sir Edward was secretary of the British embassy in Washington, and the following year acted as chargé d'affaires. Later he served as minister to Serbia and Denmark, and as ambassador to Austria-Hungary, ending in Berlin in 1923. He was born in 1817, educated at Rugby and Oxford, and was created baronet in 1916.

Saskatchewan Wheat Pool

Cleanup Day Has Been Set For June 10th

Regina.—June 12 had been definite fixed as cleanup day for the Saskatchewan Wheat Pool. It was announced by L. C. Broutlet, secretary of the Saskatchewan Co-operative Wheat Producers, Limited, and Mr. Broutlet said it was expected they would be able to pass the 7,000,000 acre mark by the end of June. "To date there are 5,250,000 acres under contract," he said, "and we were able in one day last fall to sign up more than 2,000,000 acres."

"Very little change is going to be made in the organization of the co-operators," he said, "and the co-operators are being sent out to line up the districts, appoint key men, and give them full instructions as to what they will need to do in the big day."

Montreal Mandates More Grain

Montreal.—Montreal's grain export to the United States last year at this time by over four million bushels, it was announced at the Harbor Commission's office here today on the opening of navigation to May 18, inclusive, was 15,323,256 bushels, as against 10,526,000 bushels during the corresponding period of last year.

Aviator Killed In Auto Crash

Montreal, Que.—Andrew Lang, former holder of the world's airplane altitude record, was killed when his automobile in which he was driving crashed into a fence in a dense fog. He was driving in a 24-hour test. He was a nephew of Andrew Lang, the British author.

Boost H. B. Road

Enthusiastic Gathering is Held in Regina by Supporters of the Project

Regina.—Formation of a branch of the On-to-the-Bay Association of Canada in Regina, was decided upon following a mass meeting held in the city hall here.

Enthusiastic support was given to the movement at the mass meeting, when a resolution was passed urging the government to speed up the work. The meeting was held in the city hall here.

It was also decided to send the following letter to Robert Fiske, leader of the Progressive party, and Hon. W. C. Motherwell, minister of agriculture, and member for Regina.—Failure to proceed to the immediate completion of the Hudson Bay Railway (the failure to meet serious harm to the farmers of Western Canada.)

Thinks Europe Ready For State Of Peace

Italian Paper Bares Belief On Report Of Exhaustion

Rome.—The two-day meeting at Milan between Premier Mussolini and Premier Tiesi of Belgium, was productive of mixed results, in the opinion of both the press and political observers here.

The Corriere d'Italia, the Fascist organ, which thinks that a meeting between the Italian premier and Premier MacDonald of Great Britain will occur soon, followed perings by one between Signor Mussolini and Edmond Herrick, prospective head of the new French Government, declares Europe is now ripe for a state of peace with the experts' report as a basis. Even this programme, however, will prove futile, declares the Italian press, in their purpose to carry it out at once, and completely.

Volcano Gives Danger Signals

People in Hawaiian Islands Are Warned Of Disaster

San Francisco.—Nature's danger signals are flying over the smoky crater of Kilauea volcano in the Hawaiian Islands and great loss of life may be averted if the warnings are heeded. In the opinion of Dr. T. A. Jaggar, noted volcanologist, here before he sailed for Hawaii, Dr. Jaggar, said, "The eruption of Kilauea, which has been predicted for years that Kilauea would be in action in 1924. Since the present disturbances began it has been recalled to the islands."

"The eruption of Kilauea," he said, "is a portentous new phenomenon of this sort. The lava in Kilauea's crater has been subsiding for ten years, and that is always a danger signal. I look for more violent activity. It equals the eruption of 1790, when hundreds of natives were killed."

Honors For Lenin

Moscow.—The Soviet Government has given the new name of Oulianov to the city of Simbirsk, birthplace of the late Premier Lenin. Oulianov was the real name of the Bolshevik leader.

League Investigating Reform Of Calendar

Committee Also Seeking To Find Date For Easter

Paris.—The Academy of Sciences received the members of the special committee of the League of Nations appointed to investigate the possibility of a reform of the calendar.

The committee met on Monday with the mission, which it has already declared in some quarters would dash the hopes of old minds of abolishing leap years. To this assembly, however, the committee emphatically declared that no day of any year should be able to possess on their own book during any year.

The main object sought by the committee seems to be finding of a common date for Easter, to remove the present divergence between the Catholic and Greek Orthodox faiths, and then to examine into social and religious plans for substituting the years.

South Sea Chiefs Visit Empire Exhibition

Two great Fiji chiefs who visited Vancouver on the R.M.S. Makara en route to the British Empire Exhibition over Canadian Pacific lines, on the last of June P. Vell, secretary chief of the Province of Macaula, who first visit to England was in 1914 when he was one of seven Fijians who attended the coronation of King Edward VII. On the right is Ratu John A. Vell, who is now the governor of the Fiji Islands, and on the left is Ratu J. A. Vell, who is now the governor of the Fiji Islands, and on the left is Ratu J. A. Vell, who is now the governor of the Fiji Islands.

Famous French Aviator

London.—If Sunday opening of the British Empire Exhibition is not allowed, fully ten million people will be unable to witness the big show, because they will not have the opportunity to do so on week days. It is admitted by Lord Rothermere, chairman of the standing committee. In view of the fact, however, that legislation would be necessary to legalize Sunday opening, and organized opposition to throwing the exhibition open to the public on Sunday would have to be confronted, Lord Rothermere says the project seems impossible.

Proposed Further Power Development

Power Company Ask Right to Store Water in Kootenay Lake

Nelson, B.C.—The West Kootenay Light and Power Co. has applied to the provincial works rights board for the right to store 675,000 feet of water in Kootenay Lake. If the application is granted, it is the company's intention to build the Kootenay River and Granite, submerging the Graham Rapids, and raising the lake low water level at Nelson six feet. The project would develop 20,000 horse power, and the number one plant at Upper Bonnington, near under construction, will develop an equal amount. With the six feet lake store proposed, each plant will have a capacity for the two plants of 10,000 horsepower. The company has received the requirements of the Consolidated Mining and Smelting Company of Canada for its Trail plant are the motives for the proposed further power development by the West Kootenay Company, which is a subsidiary of the Consolidated.

London's Social Season

Spender of Royal Court Held at Buckingham Palace

London.—London's social season of 1924, which is expected to be the busiest and most brilliant since the glorified days before the war, began with the real splendor of a royal court held by the King and Queen at Buckingham Palace.

As is the custom with the first court of the season, the guests, numbering 1,000, were drawn mainly from diplomatic, and official circles, but there was also a small number from the general circle of society, among them several Canadian delegates.

When all the invited thousands were assembled, the King and Queen, with their courtiers and royal kin, passed through the entire range of the state apartments, the court officials, with the white wands of office, presiding, with their faces to their sovereigns, as the procession ended in the ball room, where the King and Queen took their stand in front of twin thrones, on a low dais, with their family and court around them. As they appeared, hands within and without the palace struck up the national anthem, and then the dozen of the diplomatic corps advanced and bowed, followed by 250 "big game" and small game, and then the guests, who were then directly in front of the throne, then for a third time before passing out.

Bandit Aid Recovery Of Cashed Currency

Pleading Guilty to Robbery and Was Given Suspended Sentence

Vancouver.—Strolling Johnny Reid, bank bandit, who had been sent up for trial by Magistrate Alexander, pleaded guilty to complicity in the robbery of the Royal Bank—serving a 12-month B.C. term \$125,000 in bonds and cash stolen, and was given two years' suspended sentence. The robbery of the bank occurred March 25, 1923.

Reid was given a similar sentence in Lebridge recently for being implicated in a case of robbery in that province. He has been responsible for the return of approximately \$900,000 in currency and has been twice released by the bank of which he was a member and which worked in Canadian provinces and border states.

League Investigating Reform Of Calendar

Committee Also Seeking To Find Date For Easter

Paris.—The Academy of Sciences received the members of the special committee of the League of Nations appointed to investigate the possibility of a reform of the calendar.

The committee met on Monday with the mission, which it has already declared in some quarters would dash the hopes of old minds of abolishing leap years. To this assembly, however, the committee emphatically declared that no day of any year should be able to possess on their own book during any year.

Photos By Telegraph

New York.—A new and simplified method of transmitting pictures over long distance telephone lines has been announced by the American Telegraph and Cable Company.

By means of the process photographs were transmitted here from Cleveland in less than five minutes. Within 48 hours after a picture was developed in the Ohio city, it was exhibited, completely developed, to a group of men here in one of the A.T. & C. offices.

May Reason Washington Post

Tokyo.—Ambassador Hanfura may be asked to resign his Washington post shortly. Former Matsui told newspapers.

The resignation statement was made in gathering of representatives of the Japanese press after a Cabinet meeting at which he admitted the subject was discussed. The resignation was the result of instant inquiry.

British Empire Exhibition To Be Closed On Sundays

London.—If Sunday opening of the British Empire Exhibition is not allowed, fully ten million people will be unable to witness the big show, because they will not have the opportunity to do so on week days. It is admitted by Lord Rothermere, chairman of the standing committee. In view of the fact, however, that legislation would be necessary to legalize Sunday opening, and organized opposition to throwing the exhibition open to the public on Sunday would have to be confronted, Lord Rothermere says the project seems impossible.

To this assembly, however, the committee emphatically declared that no day of any year should be able to possess on their own book during any year.

Purged Over Wharf

Nelson.—Arthur Flow, fireman on the government tug Vallisla, was ejected in his automobile on the tug wharf with the engine running when he car suddenly started forward and went off the wharf 100 feet of water. Flow came to the surface and was rescued.

TAKES EXCEPTION TO STATEMENT ON IMMIGRATION

Ottawa.—Some remarks made by the Duke of Connaught in London on the subject of immigration were called to the attention of the House of Commons by Frank Chilton (Liberal, Ontario). The Duke had said, among other things, that "we could have in Western Canada, English, Norwegian and Swedish people, who make the best immigrants."

Mr. Chilton said that in the first place, the Canadian Government was seeking to encourage British immigrants to come to Canada, and that the statement was a Canadian question, which should be settled by Canada.

Mr. Chilton said that in the first place, the Canadian Government was seeking to encourage British immigrants to come to Canada, and that the statement was a Canadian question, which should be settled by Canada.

May Reason Washington Post

Tokyo.—Ambassador Hanfura may be asked to resign his Washington post shortly. Former Matsui told newspapers.

The resignation statement was made in gathering of representatives of the Japanese press after a Cabinet meeting at which he admitted the subject was discussed. The resignation was the result of instant inquiry.

FOR THE PUBLIC TO JUDGE, SAYS SIR THOS. WHITE

Toronto.—It is for the Canadian Parliament and the public to decide on the question of negligence or no negligence on the part of Sir Thomas White as trustee of the Home Bank situation, according to a statement issued by Sir Thomas White. This statement is in the form of a written reply to the argument of Eugene Laflamme, K.C., government counsel, in the course of the investigation at Ottawa. Sir Thomas further states that any expression of opinion by Commissioner MacKown in respect to this phase of the matter can only be personal and have no judicial quality or weight because of lack of jurisdiction.

Sir Thomas says in part: "Mr. Laflamme said that I am in error as to the nature of the evidence as to my justification for investigating through an outside auditor. My submission is and has been, that any person, whether a member of Parliament or not, has the right to question the question of justification or of the so-called error of judgment, suggested by the government. It is not for me to be ruled upon determination, by your lordship, the unconditional discretionary executive action of the minister for who has no responsibility to parliament and the Canadian people. This would only be a roundabout way of doing what Mr. Laflamme says he is not doing. It is for the public to decide and which he admits is for parliament alone, namely the question of negligence or no negligence on the part of the minister."

Canada May Demand Envoy To Washington

Want Same Concession As Granted To Irish Free State

Ottawa.—A correspondent of the Daily Telegraph says the concession granted to the Irish Free State in the matter of having an independent minister at Washington already has had an important result in that the Canadian government has decided that it must obtain equal advantages.

The Telegraph's correspondent proceeds to say that the Canadian government has decided that it must obtain equal advantages as the Irish Free State is bound to have in the matter of having an independent minister at Washington already has had an important result in that the Canadian government has decided that it must obtain equal advantages.

U.S. Navy Bar Behind Britain's

Mr. C. D. White, U.S. naval attaché, has been reported to have said that the U.S. navy is to equal Great Britain's in strength, the House was told by Chairman Butler, of the Naval Committee. Before the close of the present session, he said, action will be sought to equalize the U.S. navy with that of the United States is concerned, the 55-3 arms conference ratio.

Purged Over Wharf

Nelson.—Arthur Flow, fireman on the government tug Vallisla, was ejected in his automobile on the tug wharf with the engine running when he car suddenly started forward and went off the wharf 100 feet of water. Flow came to the surface and was rescued.

TAKES EXCEPTION TO STATEMENT ON IMMIGRATION

Ottawa.—Some remarks made by the Duke of Connaught in London on the subject of immigration were called to the attention of the House of Commons by Frank Chilton (Liberal, Ontario). The Duke had said, among other things, that "we could have in Western Canada, English, Norwegian and Swedish people, who make the best immigrants."

Mr. Chilton said that in the first place, the Canadian Government was seeking to encourage British immigrants to come to Canada, and that the statement was a Canadian question, which should be settled by Canada.

Mr. Chilton said that in the first place, the Canadian Government was seeking to encourage British immigrants to come to Canada, and that the statement was a Canadian question, which should be settled by Canada.

Dr. K. MacLennan and C. H. Estell spent the weekend in Edmonton.

Mrs. J. W. Spiece attending the Methodist Conference in Calgary this week.

Mr. and Mrs. W. J. Davidson and children, left on Monday for a month's visit at Chicago, Ills.

Mr. and Mrs. E. E. Murray and son James, of Big Valley, spent the 24th with Mr. and Mrs. J. F. Baugh.

There will be a meeting of the Canadian National baseball club in Walker's pool hall on Thursday (tomorrow) evening.

Why pay rent? Buy your own home. Call and see Mrs. Tilley as to some excellent opportunities. Terms can be arranged in most cases to suit the purchaser. 21-1

A special meeting of Lamerton Municipal Council, No. 308, was held at 8:15 on Monday last, to consider plans for the new assessment which will be made this year. R. G. Lowe, secretary-treasurer, was appointed assessor.

The management of the Grand theatre wish to call attention to the pictures which will be shown after each ball game in Mirror this season. These will consist of "SPECIALS" with such stars as Mix, Jones, Mary Phillips, Fay Compton, Myrtle Hayler, Maurice Flynn, Janice Line Logan, John Gilbert, etc. Every picture will be a guaranteed production, and the management personally guarantee each and every picture.

How The New Testament Came To Us

(Continued from last week)
The New Testament books were written on papyrus, slices of the stalk of a plant growing in the river Nile in Egypt. The first books were in roll form. The New Testament Papyrus came from Egypt and are of the third and fourth centuries. Until the fifteenth century all books were made by hand. Many more mistakes were made through the ignorance of the slaves who copied them either from dictation or by sight. One can easily see how easy it would be to make mistakes when there were no separations between words, no chapter divisions and were divisions as they appear in the ancient manuscripts. In the third century the form of the book changed from the roll form to the codex form, which is our present book form with leaves. Parchment made its appearance and very often, since parchment was scarce, a piece was used twice.

Jesus spoke a language known as Aramaic and it was because Christianity moved out beyond Aramaic speaking Palestine that the language of Christianity became Greek, when Christianity reached Rome its message soon had to be done into the common speech of the Romans and of the west, namely Latin. By the close of the fourth century there were so many Latin translations of the Bible that Pope Damasus commissioned the scholar St. Jerome to prepare for use in the church a new translation of the Scriptures in the common Latin of the day. So successful was this translation that it is still the version universally used in the Roman Catholic Church. It is the Latin Vulgate from vulgar—the common people. St. Jerome feared to make this new translation for he knew how the people would, as he puts it in his preface, "break out into violent language and call us a forger and a nefarious person for having the audacity to add anything to the ancient books or to change or to correct anything. But if the truth is to be sought from history, why should we not go back to the original Greek and correct the mistakes introduced by inaccurate translators and the blundering alterations of arrogant and ignorant men, and further, all that has been added or altered by sleep-copiers? The New Testament is certainly marked by discrepancies, and the stream flows in different channels." was not St. Jerome exactly in the position of the so-called higher critics of today? Yet St. Jerome desired nothing more than the truth as nearly as he could approach it even our scholars of this twentieth century do. The basis for the English rendering was the Greek in which the books were originally written but the Latin Vulgate of St. Jerome. The Douay New Testament of Roman Catholic translation from the Latin in 1582 influenced the English of the King James version at many points. (Continued next week)

The special train, operated in connection with this tour and consisting of modern sleeping car, dining car, and radio observation car, will leave Winnipeg, July 2nd. After stopping at various points, the train will arrive at Prince Rupert on July 7th. At this latter point, the party will embark on one of the palatial steamships of the Canadian National Pacific Coast services for a cruise of 560 miles through the famous "Inside Passage" to Vancouver. While the tour terminates at Vancouver, those who desire to make a trip to Victoria, may have their tickets read "Victoria" as their destination without any additional cost.

The local agent of the Canadian National Railways will be pleased to give you full particulars of this tour, including the cost, choice of routes, returning, etc. 21-4

Next Tuesday, June 3rd, is the King's Birthday.

The daily showers are just what the country need.
